

Your Trusted Partner for Comprehensive Global Literature Monitoring Services

Our **multidisciplinary literature surveillance team** conducts comprehensive global safety monitoring using leading biomedical databases, including **Medline** and **Embase**, supplemented by non-indexed literature screening. Our search strategies are meticulously **tailored to each product and drug class**, ensuring accurate and thorough identification of individual case safety reports (ICSRs), signal detection, and support for aggregate reporting. All activities are performed under the oversight of experienced quality control reviewers, ensuring the **highest standards of scientific rigor and regulatory compliance**.

Full-Service Literature Surveillance Offerings:

Comprehensive screening of global biomedical databases (e.g., Medline, Embase)

Procurement and certified translation of scientific literature

Timely identification and processing of Individual Case Safety Reports (ICSRs)

EMA Medical Literature Monitoring (MLM) deduplication

Signal detection and evaluation aligned with regulatory expectations

Resource-efficient workflows to optimize cost and turnaround time

Regulatory compliance with EMA, FDA, and all other global authorities

Key Benefits of PrimeVigilance's Literature Services:

- **End-to-end coverage:** From indexed and non-indexed literature to grey literature, ensuring no safety signal is missed.
- **Accelerated timelines:** Rapid ICSR identification and reporting to meet global regulatory deadlines.
- **Audit-ready compliance:** Services aligned with EMA, FDA, and other international standards.
- **Reduced operational burden:** We handle the complexity, freeing your internal teams to focus on strategic priorities.

Tailored Solutions for Your Unique Needs

Customized Engagement:

- Flexible service packages tailored to your product portfolio and regulatory landscape
- Dedicated support teams and seamless integration with your internal processes

Technology-Driven Efficiency:

- **Retrans:** Our semi-automated literature tool
- **Automatic alert import** from EMBASE for real-time responsiveness
- **Cloud-based platform** with secure, scalable infrastructure
- **Automatic audit trail** for full traceability and inspection readiness

Operational Excellence:

- Full-text article procurement and certified translation support
- Predefined workflows aligned with PrimeVigilance SOPs
- Real-time work status visibility and improved oversight
- Streamlined tracking, quality control, and automated output generation

Why Choose PrimeVigilance?

1

Proven Track Record

Trusted by global pharmaceutical and biotech companies, with a history of delivering scalable, compliant, and innovative safety solutions for more than a decade.

2

Deep Expertise in Pharmacovigilance & Automation

Our teams combine scientific excellence with cutting-edge automation tools to ensure timely, accurate literature surveillance and signal detection.

3

Commitment to Quality & Innovation

We continuously evolve our services to meet your unique needs, balancing regulatory rigor with operational flexibility.

4

Proactive Signal Management

Early identification of emerging safety signals supports proactive risk mitigation and enhances patient safety.

5

Data-Driven Insights

Transform literature data into actionable intelligence, supporting smarter decisions and better outcomes.

What Sets Us Apart?

Holistic. Cost-effective. Innovative.

Unrivalled reputation in the sector, backed by a global network of subject matter experts (SMEs)

Access to former senior regulators and industry consultants with decades of experience
